# Foreword

This unusual offering to the public of the "Original" Celebrated Grinnell Collection of United States Paper Currency warrants a few apropos remarks regarding the extent of Mr. Grinnell's endeavor to form what is generally regarded as the most complete series of our National Paper Currency ever to be brought together into one vast collection.

While he was an ardent student of Numismatics for a great number of years, his preference for United States coinage was notable and it was his particular desire to complete if possible the Paper Money Series for the Collection. Seeking to accomplish this almost impossible task led to an intensified effort on his part in the last two decades, during which period he spared neither time nor expense to realize his lifetime ambition.

How well he succeeded can be gleaned from the fact that with a few exceptions, the entire series is now complete and the Collection is unsurpassed. No other Collection of notes, so complete, exists and it is highly improbable that a similar collection will ever again be offered at Public Auction or Private Sale.

It is difficult to conceive the magnitude of this magnificent Collection, therefore, it would be futile to attempt to enumerate the many rare and desirable specimens contained therein in any preface. However, it will suffice to add that this presents perhaps the only opportunity to secure specimens of notes which heretofore were regarded impossible to acquire.

This catalogue will comprise the seventh section of Mr. Grinnell's vast Collection. In it we shall endeavor to furnish valuable historical information pertaining to each series of the various issues so the Catalogue may be a fitting testimonial to Mr. Albert A. Grinnell for his truly monumental efforts and a lasting contribution to Numismatics. We sincerely hope everyone who receives this Catalogue will appreciate its potential value as a permanent record of the finest Collection of this kind ever sold at Public Auction.

The acquisition of any specimen from this superb collection should afford a great deal of satisfaction to its new owner for many of the notes are "unique" and hitherto unobtainable at any price. Therefore, we urge that you read the terms of the Sale carefully then check all items which may be of interest, and prepare your bids at once for this is a matter of "priority" which is most important.

We invite your liberal patronage for this great sale with the assurance that all commissions will be executed most faithfully.

Numismatically yours,

BARNEY BLUESTONE.

# *A* GREAT NUMISMATIST

---

Mere words alone would be futile to adequately describe the great character of Albert A. Grinnell, whose world famous Collection of United States Paper Currency is herein being offered for sale at public auction in accordance with his express desire, "That others who may have a kindred interest share in each case the great pleasure which the acquiring of each of them has given to me." This is typical of Mr. Grinnell who has always been most liberal minded in all transactions.

His prominence as a Numismatist is attested by the fact that he is loved and admired by hundreds of the Collecting Fraternity. His deep interest in this subject is nationally known for he has always been active in the affairs of the American Numismatic Association of which he is Life Member No. 20. For many years he attended the A.N.A. Conventions where his exhibits have always been of outstanding interest.

He was a founder of the Detroit Coin Club and served as its second president. At the 400th meeting of that Club in 1941, he was presented with a large gold medal bearing his likeness, in recognition of his meritorious contribution to numismatic science. Similar recognition was bestowed upon him by the Odd Fellows Lodge at Oakfield, N. Y. for fifty years of active membership. His Masonic Lodge in Batavia, N. Y., bestowed upon him the same honor for a half century of splendid service.

Although he has been established in Detroit for the past thirty-four years, his early life was spent in New York State. Mr. Grinnell is a native New Yorker, having been born June 12, 1865, in the town of Shelby, Orleans County, where his father conducted a general store. It was here at the tender age of eleven that he manifested his first interest in numismatics. At the close of each day his father would empty the contents of the till, and usually young Albert showed keen interest in any shiny new coins which he saw among the day's

receipts. No doubt many of these he acquired for his collection.

After his early training at home, he later completed his education at the Rochester Business College graduating with high honors. With his sheepskin tucked under his arm, young Grinnell departed to launch upon his business career. However, he paused long enough to be married to his boyhood sweetheart, Miss Helen A. Avery, in 1888. She was thereafter his constant companion and inspired him to success until her untimely demise in 1931.

His first business venture was the establishment of the Grinnell Retail Coal and Lumber Yard at Oakfield, N. Y. His genial disposition coupled with fair dealing was soon reflected in the success of this enterprise and it was not long before he branched out into other fields. Several years later, Mr. Grinnell had developed a successful business by building the large grain elevators and warehouses for the handling of farm products. After many years of handling this great enterprise, he finally moved to Detroit in 1910 to become affiliated with Grinnell Brothers Music House. Later when the company was incorporated, he became Vice-President and afterward President, which office he held until retirement.

Devoting many years of his life to the accomplishment of acquiring the finest and most complete collection of U. S. Paper Currency as Mr. Grinnell did, sparing neither time nor expense in obtaining the finest specimens only, has made this offering possible. This commendable undertaking at its successful culmination can be best realized after a careful study of the contents of this catalogue.

The privilege of cataloguing a collection of such vast importance is indeed a rare pleasure and I feel singularly honored in being selected by Mr. Grinnell to disperse this marvelous collection in a fitting manner so that all interested may be properly served.

Numismatically yours,

BARNEY BLUESTONE.

## UNITED STATES PAPER CURRENCY

The largest and most complete collection of United paper currency ever offered at public auction. Including some of the greatest rarities, many of which are unique and in a number of instances but one other of its type being known. ## NATIONAL BANK NOTES UNCUT SHEETS OF UNITED STATES CURRENCY

A collection of uncut sheets of national bank notes, one on each of the forty-eight states. All of the sheets are the first that were issued by these banks, and the majority of them are all number 1 notes.

This is a rare and unique group on which there will be spirited bidding. These items are out of print and there will be no more of them. This opportunity may never be presented again. Each sheet is offered individually but at the end of the group you will have a chance to bid on the entire forty-eight lots.

Each sheet is inclosed in a special-made cellophane holder neatly bound at three edges in green, with perforations at the open side making them adaptable for ring binders.

There are six notes of the same denomination in each sheet. There are forty-five uncut sheets of \$5.00 notes and three sheets of the \$10.00 denomination. All notes are signed by E. E. JONES, Register of the Treasury and W. O. WOODS, Treasurer of the United States.

All sheets are as perfect as the day they were issued unless otherwise stated.

## TWO DENOMINATION NOTES

These two lots are the rarest in this sale. They comprise a full cut sheet (twelve notes) consisting of two panels of \$10.00 notes with \$5.00 reverses. It is the only item of this kind known to exist.

As you will see by the variation of numbers on the two sheets, the sheets were separated at the Treasury Dept. There is a difference of 72,000 in the two sheets. However they are both on the same bank, and of the same series and both sheets have the same plate numbers, both front and back, signifying that they were originally printed on the same sheet of twelve notes.

After the sheets are originally printed, they are cut into two panels of six notes each. After the original sheet is divided, then the numbers and seal are affixed. These are of the greatest rarity.

The two sheets are going to be offered separately and then an opportunity will be given you to bid on both of the sheets in a separate lot. They are on the rare bank at Richmond. Mr. Grinnell states that these are the only two sheets of its kind known.

- 5696 \$10.00 obverse and \$5.00 reverse. 1928A. **Federal Reserve Notes, Richmond.** Sigs. Woods and Mellon. Obv. plate 1. Rev. plate 4. **Cut Sheet of Six Notes.** Check letter A to F. Of the highest degree of rarity. Uncirculated but unfortunately one note shows a slight defect at the upper left hand corner and appears to be skillfully repaired. 6 Pcs. (\$3550.00)
- 5697 \$10.00 obverse and \$5.00 reverse. 1928A. **Federal Reserve Notes, Richmond.** Sigs. Woods and Mellon. This is the second panel of six notes. Both obverse and reverse plate numbers are the same as the former lot. You will note that these have plate letter G to L which is the second half of the sheet. The previous lot had the check letter A to F. It was the rarest occurrence (almost miraculous) that these two panels were secured in order to make this complete sheet. This may be the last opportunity to participate in a unique rarity of this kind. All the notes are uncirculated but the note with Plate L appears to be somewhat faded. 6 Pcs. (\$3550.00)
- 5697A We will entertain a bid on lots 5696 and 5697 should someone desire the set intact provided the bidder will increase the bid by \$100.00 on both lots above the mail and floor bidders.

## COLLECTION OF RARE AUTOGRAPHED NOTES

A collection of rare autographed notes signed by officers of the Treasury Department as well as the Federal Reserve and National Banks. These autographs are hard to secure and this collection represents lots of time and energy.

This first set consists of six notes autographed by Hon. D. N. MORGAN, TREASURER of the U. S. from 1893 to 1897. The notes are autographed on the reverses to MR. GRINNELL on July 15, 1929. This was five days after the release of the new reduced size currency.

The memorandum further says that Mr. Morgan received the notes from Mr. W. O. Woods, Treasurer on that same day. All are uncirculated and in special made containers.

A collection of reconstructed sheets that will merit the close consideration of all collectors. There are sheets of all series, freaks, good charters, good serial numbers. Some of these notes are extremely scarce.

Mr. Grinnell states that he does not know of another sheet of this kind in existence. It is unique and a matchless gem. There is with this sheet the Treasury Dept.'s strap that held the package of notes with a memorandum by the teller that found the notes showing what the numbers should have been. Both front and back plate numbers the same on all the notes. (\$150.00)
- 5761 \$1.00—1928A. Silver Certificates. Sigs. Woods and Mellon. Low and attractive serial Nos. 19 to 24. The second sheet in this series of serial letters. Rare. (\$30.00)

## RECONSTRUCTED SHEETS—NATIONAL BANK NOTES

The First National Bank of Philadelphia was granted the first charter to be issued by the Treasury Department and they used this charter on all of their currency from the first issue in 1863 to the last issue in 1929. The sheets are numbered with serials containing the digit "1" the first one having serial No. 1.

## UNIQUE UNCUT SHEETS OF NATIONAL BANK NOTES

This is probably the rarest and choicest item in this sale, in fact it is one of the rarest in Mr. Grinnell's entire collection. It consists of three sets of sheets, each and every sheet bearing the same bank charter number and serial No. "1".

During the period these sheets were being issued there were several consolidations of banks in Detroit. A Treasury Department ruling is that when a bank changes its structure in any way, and in order to retain its charter number, there must be a change in the title of the bank.

When these sheets were first issued, the bank was operating under the name of "First National Bank in Detroit." Mr. Grinnell was able to secure a complete set of sheets, five in all, from \$5.00 to \$100.00 denominations all of them bearing serial No. "1". When the next change was made the bank name was changed to "First Wayne National Bank of Detroit." They went back to the original numbering and Mr. Grinnell was successful in securing the first complete set to match the former set. When the last change was made the bank name was changed to "First

National Bank, Detroit." The charter number remained the same. Mr. Grinnell was also able to secure the first set of sheets issued under this name, to match the two previous sets.

This is undoubtedly the only set of its kind known to exist. There probably have been two changes, but to locate the first sheets under these conditions and to have a series of three changes is phenomenal.

Each one of these sets of sheets will be offered for your choice. Also an opportunity will be given for you to bid on the entire lot of three sets. This is a prize worthy of a place in the greatest collection.

A collection of uncut sheets that in all probability excels anything that has ever been offered. These are sheets in their original form as they are printed and before they are cut in two panels.

We anticipate many bids on this group. Many of you will be justly proud of your acquisitions—not only for their rarity and beauty but because they have been in this remarkable collection.

Each sheet is inclosed in a special made container of heavy transparent material. All are in crisp condition and superb.
